

Contract of Sale Notice

Sara Safety Solutions Ltd is an on-line provider of instantly available food safety training courses.

If you request a course directly from us and not purchased through the shop then the contract of sale has begun at that point.

We will invoice you, expecting payment in 30 days as soon as the learner has been enrolled and sent their username and password. Our payment is not dependent on when they chose to access the course and learn.

If you change your mind within the 14 day period from requesting the course and the learner has not accessed it then the payment will be adjusted to £10 to cover administrative costs in making changed to the Learning Management System i.e deletion of the learners information under GDPR.

We cannot and will not be responsible for the learner's journey and as to how and when they behave accessing the course. We cannot and will not be responsible for reminding them to access the course in any unpaid time or any changes that they or you may want to make to their contact details such as their email address.
